

Would you like to have your baby at Mid Essex Hospital or Birthing Unit?

At Mid Essex, we want to provide you and your baby with the best possible care during your pregnancy.

To help us provide this care, we ask that you refer yourself for care as soon as you confirm your pregnancy (you can self-refer, no need to go to your GP to be referred for care from us, see below).

Public Health England recommended that all women access Maternity Care at the earliest opportunity (ideally before 10 weeks) to ensure more effective treatment and to make informed decisions about your health and the health of your baby via the National Screening Programmes.

To contact the Community Midwives to arrange care please contact on the relevant email address below

St Peter's, Maldon

stpetersmidwives@meht.nhs.uk
